

## **ASX/MEDIA RELEASE**

**6 June 2017**

### **LNGL APPOINTS CHIEF OPERATING OFFICER**

Liquefied Natural Gas Limited (ASX: **LNG**, OTC ADR: **LNGLY**) (**LNGL** or the **Company**) is pleased to announce the appointment of Mr. John Baguley to Chief Operating Officer based in Houston, Texas effective June 16, 2017. Mr. Baguley joined the Company in May 2014 as Chief Operating Officer for Magnolia LNG and further expanded his responsibility to the role of Chief Technical Officer for LNGL in November 2015.

Over his 30 plus years in the energy industry, Mr. Baguley has led teams that have designed, built, delivered, and operated some of the most innovative and challenging LNG and related petrochemical projects around the world. This experience provides the knowledge and background to lead LNGL operations, which includes oversight of both the Magnolia LNG and Bear Head LNG projects, the Company's OSMR® technology, managing strategic alliances with service providers, and ensuring effective integration across design, construction, and operations.

"John has been an integral part of LNGL since he joined the Company and a trusted advisor to me," said Greg Vesey, Managing Director and Chief Executive Officer of LNGL. "I congratulate John on his new role, and look forward to working with him as we continue to drive the Company onward into its next phase working with our customers, strategic partners, and shareholders."

Mr. Baguley said, "I am grateful for the opportunity to serve as LNGL's Chief Operating Officer and to carry on the excellent progress we have made in taking our projects from conception through development and now ready for construction. We have built a great team at LNGL, and together, we will deliver on the Company's goals and aspirations as we make the transition into an organization responsible for operational LNG assets."

## ABOUT LIQUEFIED NATURAL GAS LIMITED

LNGL is an ASX listed company (Code: **LNG** and OTC ADR: **LNGLY**) whose portfolio consists of 100% ownership of the following companies:

- Magnolia LNG, LLC (**Magnolia LNG**), a US-based subsidiary, which is developing an eight mtpa or greater LNG export terminal, in the Port of Lake Charles, Louisiana, USA;
- Bear Head LNG Corporation Inc. (**Bear Head LNG**), a Canadian based subsidiary, which is developing an 8 mtpa or greater LNG export terminal in Richmond County, Nova Scotia, Canada with potential for further expansion;
- Bear Paw Pipeline Corporation Inc. (**Bear Paw**), proposing to construct and operate a 62.5 km gas pipeline lateral to connect gas supply to Bear Head LNG; and
- LNG Technology Pty Ltd, a subsidiary which owns and develops the Company's **OSMR**<sup>®</sup> LNG liquefaction process, a mid-scale LNG business model that plans to deliver lower capital and operating costs, faster construction, and improved efficiency, relative to larger traditional LNG projects.
